

Kristiina Vuorensivu, Jesus follower, Mom, Counsellor -MA RCC, Ministry Leader
Supporting & Equipping Leaders for Healthy Church

Jesus wept, Jesus slept and he submitted his own power to disciple imperfect human beings, and that is just a small taste of things we can learn from.

Are you wanting to lead others well? ensure you avoid burn-out ? or maybe if you assess honestly, you are in that 10% that gets credited for 90% of the work? Then this workshop is for you.

Burn out is not God's leadership model, and over-working is no way to disciple others. I see this time and again in leaders who come to counselling weary and having lost sight of the vision and joy that once led their lives and ministries. We want to see healthy churches and leaders.

It starts with YOU.

Jesus was and always is our example. Come explore his example and how it applies to your daily life, wherever you lead. We will explore what healthy leadership looks like to influence a church body to maturity and unity in faith and work.

The size of your church or your circle is irrelevant as the influence on even one congregant, one friend...or even one child at home, always has a ripple effect.

This workshop can apply to ministry leaders or anyone who has a leadership role of any kind.
